### Preschool Strengths

Please let us know what you think works well at preschool.

6 responses

All members of staff are amazing, they are truly a great team and I fully trust them my child. Open days for parents show just how much is going on at preschool, by seeing it for myself I have better understanding of processes and can see a high quality care my child receives.

Nothing works better than having a very caring, patient, and strong team 🤝 who strives to bring out their best in planning and working together in love so as to achieve one goal. Which is making sure that children under their care are well safeguarded and seeing that their prime and specific areas are covered.

Change the child's behavior for the better

Everything

Teachers to parents engagement

Everything works fine, I love it here as a parent.

### **Preschool areas for further development**

Please let us know of any ways you think we could do better.

Would be nice to get an understanding of a typical day at preschool, what is your routine

No need for any improvement in my eye

Keep doing the good work!!!!

None

### **Your child's views and ideas...**

N/A

Very happy

She's so so happy to be here and learn.
